

**About Hybrid Solutions
FX Trading Software Company**

Established in 2002, Hybrid Solutions provides FOREX Online Trading Platforms. Hybrid Solutions has adopted the latest technologies and international standards to develop its Online Trading Platform. With our partners support, we developed VertexFX, a state of the art online trading system introduced as a package of holistic solutions to BackOffice, client trade station and Server side, Market Makers, Clearing houses, Brokerage firms and other dealing rooms.

More than ten languages and different tools were used to develop our trading front ends and communication content, delivered as a single package called VertexFX Trader ensuring flexibility, reliability, security and high availability.

Hybrid Solutions proved to their customers, whether they were market makers or any other dealing room, that the fast development and customization provided with high professionalism and support for trading systems creates a solid ground for real partnerships that allow businesses to grow and prosper.

VertexFX Physical Trading

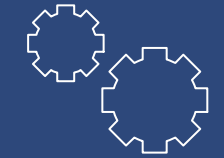

CONNECTING YOUR PHYSICAL BUSINESS TO VERTEX FX RESOURCES YOU NEED

Hybrid Solutions has endeavored to set-up Physical Market through the VertexFX platform in order to simplify the physical trading. As the market of any product is open, many will have the chance to buy the wrong product or commodity. Many have argued that having an account in gold and other precious metals in paper/certificate will be blown up with the bullion physical market.

Hence, buy the real thing and get out of any investments that give your paper instead. To have a sound investment in physical gold, listed below are few of the things you need to know. Banks and brokerage houses are the major holders of the precious metals and thus contribute in the precious metal exchange traded funds.

Market Watch	
Symbol	Bid
▲ SLVR (Oz)	19.1
▲ GLD (Oz)	126
▼ Platinum (Oz)	1408
▲ GLD KG 995	4047
▲ GLDKG999.9	4065
▲ GLDTT	4742
▲ SLVR KG	616.8
▲ Palladium (Oz)	884.8

Market Watch Ticks

CUSTOM SOLUTION

Traditionally, Most of the available systems do the trading by the amount LOT and referenced on the USD . Trading by physical is standing for the ability to change the trading amount on the system, according to simple configuration from LOT for example to another trading units, like Kilo, Gram, Ounce, or any other amount unit, and the ability to reference over some other currencies rather than the USD.

MULTI-LEVEL SYMBOL SETTINGS

VertexFX Trader activates the Multi-Level Symbol Settings with the VertexFX 10 Version, from which you can edit all your symbols using multi-leveled tree manners, add margin/physical symbols groups, and manage your symbols inside these groups, edit group, or edit multiple symbols, transfer symbols, and all these features are all available with a great easy interface .

flexible solution for your physical trades

VERTEXFX PHYSICAL TRADING OBJECTIVES

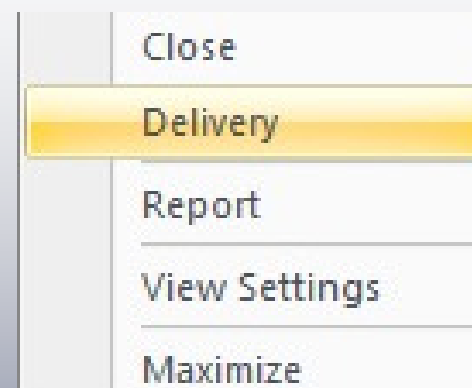

The objectives of promoting physical market in VertexFX are:

- To set up an international level trade association for representing physical importers, dealers, traders, jewelry merchants, ornament dealers, exporters, physical banks, nominated agencies, investors, consumers, refineries and all stakeholders connected directly or indirectly with the physical trade and industry.
- To identify the problems faced by various stakeholders connected with physical trade and industry and to find out likely solution to such problems for achieving overall growth of physical trade and industry.
- To promote savings and investments in gold and silver and to evolve a system of seamless trading, investment, vaulting, electronic record keeping, dematerialization and other value

TECHNOLOGY CONSULTING PROVIDES A TOTAL END TO END SOLUTION.

PHYSICAL MARKET TRADE LIFE CYCLE

When you join the VertexFX physical users' network, you will witness a different trading technology, your vision of Buy and Sell icons buttons will not remain the same, you will experience a state of art, built over high standards of the ease of use philosophies, attractive the style, creative on the idea, new on the functionalities, different on the layout, easier for use, efficient on time management, while you can Trade 6 Orders on one click, and have 9 Functionalities on one screen.

Here how the physical trade cycle goes:

- Double click on the desired symbol from the market watch.
- Set your order amount and start buying positions.
- You will see you open positions in the Trade Panel.
- To deliver the positions go to the Net Trade Panel.
- Right click on the desired symbol and choose "Delivery".
- Choose the delivery method to be "Pick up from Office" or "Deliver to door step" .

MACHINE INDEPENDENT SOLUTION

VertexFX Web Trader is considered to be a machine independent Trading terminal, as it supports all of Desktop, WEB and mobile terminals and fully tested at all traditional web browsers with smooth online market movement, real time market order placement, with the same security of the windows based system.

EBUSINESS SOLUTION

You can trade on physical at any-time day or night as there is 24-hour trading. If you are suddenly inspired by a sudden optimism about a certain physical you can take advantage of that purely by logging into your trade account and clicking a few buttons. It does not have to cost you an arm and a leg either, you can trade as little or as much as you wish, when you want to.
